Étienne Boursault

Full stack developer · trained as a polymer and composites engineer

Utrecht, the Netherlands · etienne.boursault@live.fr · linkedin.com/in/eboursault · github.com/Etienne-Boursault · etienne-boursault.github.io/CV

EXPERIENCE

May 2023 → present

Fairphone · Amsterdam

Full stack developer

Fairphone designs modular, repairable phones, made with ethically and transparently sourced materials.

- In a team of four (analyst, tech lead, two developers), I build and maintain the ten or so microservices that collect data from the phones and make it available.
- They serve four audiences: phone owners (warranty, unlocking their phone), customer support (ticket creation), repairers, and the applications that analyse device quality and lifespan.
- Migrated the whole stack to Spring Boot 3.5 with zero downtime.

Kotlin · Spring Boot · Vue.js · TypeScript · PostgreSQL

Mar 2022 → Mar 2023

Klee Group · Nantes

Full stack developer

- Spring and Angular app to track and prevent vector-borne diseases, used by 5,000 people.
- Front end in Angular 14 and TypeScript, back end in Spring and Java 11; tests written in BDD.

Angular 14 · TypeScript · Spring · Java 11 · BDD

Sep 2019 → Mar 2022

Sopra Steria · Nantes

Full stack developer

- Java 8, Spring and Angular app giving over 3 million customers access to their energy use, with zero downtime.
- Intranet displaying data for 1.4 million km of power grid (PHP 7.4, Smarty).
- Processing of large datasets with Oracle and SQL.
- Fully remote team, three-week sprints, code review, pairing, continuous integration. Ran internal training sessions.

Java 8 · Spring · Angular · PHP 7.4 · Oracle

2019

Groupe Adaming · full stack bootcamp, Nantes. The bonding layer between the two trades.

2016 → 2018

FPSA Groupe · Timișoara, Romania

Engineering project manager

- 20 injection-moulded automotive part projects, an international team, a €4M budget.
- Rolled out the company's lean management practices.

2013 → 2016

Aptar

Methods engineer, work-study with ISPA

2011 → 2013

Cooper Standard · Rennes

Injection moulding technician, work-study with ISPA

- Thermoplastic injection moulding shop for the automotive industry.

FEATURED PROJECT

unebonnere.co

Une bonne reco catalogues every work recommended on the French podcast *Un bon moment*. I designed, built and host it on my own, since May 2026.

Each episode goes through an automated pipeline, then a human review:

`RSS feed →` `Whisper transcription →` `extraction by two cross-checking AI models →` `TMDB, Spotify, MusicBrainz →` `review →` `static site`

955	368	117	8,700+	WCAG AA	48
recommendations	works	episodes	automated tests	checked on every change	written architecture decisions

unebonnere.co · github.com/Etienne-Boursault/Reco

SKILLS

Engineer side

THERMOPLASTIC INJECTION MOULDING

part and mould design, press setup

MATERIALS

thermoplastics and composites, rheology, analysis methods

INDUSTRIALISATION

lean manufacturing, 5S, SMED, FMEA, just-in-time

Developer side

LANGUAGES

Kotlin, Java, TypeScript, JavaScript, Python, SQL, PHP

BACK-END

Spring Boot, JPA / Hibernate, REST APIs, microservices, PostgreSQL, Oracle

FRONT-END

Vue.js, Angular, Astro, RxJS, HTML, CSS

AI

Claude Code, Anthropic and OpenAI APIs, Whisper

TOOLING

Git, Docker, GitHub Actions, Jenkins, SonarQube, Linux

PRACTICES

TDD, BDD, written architecture decisions, Scrum

AI IN MY PRACTICE

Coding agents

Claude Code every day, framed by rules and skills written for each project, automated reviews and specialised sub-agents.

Reliable LLM extraction

Two models from different providers cross-check each other, and a human decides when they disagree. It is the core of unebonnere.co.

Self-hosted assistant

A personal assistant running at home, with its own tools. The one that reads email has no way to act, so a malicious message cannot trigger anything.

EDUCATION AND LANGUAGES

Education

2019	Full stack bootcamp, Groupe Adaming, Nantes
2011 → 2016	Polymer and composites engineering degree, ISPA / École des Mines de Douai, Alençon. Five-year work-study programme.

Languages

French	native
English	bilingual
Spanish	fluent
Romanian	intermediate
Dutch	beginner
Vietnamese	elementary (A2), taking lessons since 2024

OUTSIDE OF CODE

My dog, who needs walking every day; 3D printing (thermoplastics again); squash, running, astronomy, reading, cooking, travel, coffee.
